PROFESSIONAL SUMMARY

Senior Front-End & UI Specialist with extensive background architecting high-performance web applications using React, Angular, and TypeScript. Proven track record supervising UI delivery teams, designing interactive annotation workflows with SurveyJS, and managing mission-critical data ingestion pipelines for Large Language Model (LLM) training and AI evaluation. Adept at bridging modern frontend engineering with enterprise process automation and distributed systems.

TECHNICAL SKILLS

AI & LLM Workflows: LLM Training UI, SurveyJS, Data Ingestion Pipelines, Schema Validation, Prompt Tooling, Data Sanitization
Frontend Engineering: React, Angular, TypeScript, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Bootstrap, Electron, Redux
Backend & Data: Node.js, Express.js, RESTful APIs, Microsoft SQL Server, Firebase, Web3 Gateways
Enterprise & Automation: Microsoft SharePoint, Power Apps, Power Automate, Office 365, Git, Bitbucket, Linux

PROFESSIONAL EXPERIENCE

Front-End & UI Delivery Specialist / Team Lead

TrustScale (Contract)

Jun 2025 – Present
California, US (Remote)

- **Supervised and guided the Front-End & UI Delivery team**, establishing coding standards and best practices for interactive survey workflows, evaluation interfaces, and dataset curation tools using SurveyJS and modern JavaScript frameworks.
- **Directed UI delivery and data ingestion operations** for complex multimodal LLM training initiatives, coordinating cross-functional annotation teams to guarantee high-throughput, structured data delivery for global enterprise clients.
- Implemented robust schema validation, output sanitization, and automated quality control pipelines, eliminating structural dataset inconsistencies and accelerating model fine-tuning cycles.
- Partnered closely with AI research leads, localization experts, and data engineers to deploy low-latency, responsive interfaces under rigorous project deadlines.

Independent Software Consultant

Freelance

Jan 2025 – Jun 2025
Remote

- Delivered bespoke web applications, single-page architectures (SPAs), and interface modernizations using React, Angular, and modern TypeScript for diverse client requirements.
- Conducted frontend performance audits and code refactoring, enhancing Core Web Vitals, cross-device responsiveness, and REST API integration efficiency.

Software Engineer

Grupo KFC Ecuador

Jul 2024 – Dec 2024
Quito, Ecuador (Remote)

- Architected and deployed enterprise automation solutions leveraging Microsoft SharePoint, Power Automate, and Power Apps across operational units in the USA, Latin America, and Spain.
- Engineered relational Microsoft SQL Server database schemas and integrated automated reporting tools, streamlining compliance and operational audits.

Web Application Developer

Gunpowder

Oct 2023 – Jun 2024
L'Aquila, Italy (Remote)

- Engineered dynamic SPAs and cross-platform desktop applications utilizing Angular, TypeScript, Bootstrap, and Electron.
- Enforced strict code quality standards through peer reviews and automated QA processes, optimizing asynchronous state management and secure API endpoints.

PROFESSIONAL EXPERIENCE (CONTINUED)

Frontend Web Developer
Chocosfera

Apr 2023 – Jun 2024
Turin, Italy (Remote)

- Developed responsive frontend interfaces in React and JavaScript, integrating decentralized Web3 and blockchain functionalities to expand platform offerings.
- Collaborated with design and backend teams to ensure seamless UX, cross-browser compatibility, and high frontend performance.

Frontend Web Developer
Pagine Azzurre

Apr 2023 – Aug 2023
Turin, Italy (Remote)

- Built responsive web applications using React and CSS, integrating cryptocurrency payment gateways for e-commerce merchants.
- Translated complex Figma wireframes into intuitive user flows, conducting rigorous unit testing to guarantee cross-device reliability.

Frontend Web Developer (Apprenticeship)
Politecnico di Torino

Sep 2020 – Jan 2021
Turin, Italy (On-site)

- Developed an emergency campus seat and classroom booking application during Covid-19 protocols using React, HTML5, and CSS3.
- Implemented backend services with Node.js and Express.js, managing user authentication, booking logic, and RESTful API integrations.

Software Engineer (Apprenticeship)
Politecnico di Torino

Mar 2018 – Jun 2018
Turin, Italy (On-site)

- Developed an Android community book-lending application using Android Studio and integrated Firebase Realtime Database, Cloud Storage, and Authentication.

Software Engineer
Farmacias Santa Martha

Nov 2012 – Dec 2014
Manta, Ecuador (On-site)

- Developed tailored enterprise inventory, CRM, and sales tracking software using Visual Basic, Microsoft SQL Server, and Debian Linux environments.
- Deployed web solutions via WordPress and trained junior developers, optimizing internal processes and significantly boosting commercial operational revenue.

EDUCATION

Universidad Internacional de La Rioja (UNIR)
Master’s Degree in Digital Marketing (SEO Specialization)

Spain
Mar 2025 – Mar 2026

Politecnico di Torino
Graduate Coursework in Computer Software Engineering

Italy
Sep 2014 – Dec 2017

Universidad Laica Eloy Alfaro de Manabí
Bachelor’s Degree in Computer Software Engineering

Ecuador
2006 – 2012

CERTIFICATIONS

- **Front-End Web UI Frameworks and Tools: Bootstrap 4 (with Honors)** – Coursera
- **Understanding TypeScript** – Udemy
- **Web Design for Everybody: Basics of Web Development & Coding Specialization** – University of Michigan
- **Exploring Emerging Technologies for Lifelong Learning and Success** – SUNY
